

SCRATCHMAGIC.CO.ZA'S CHIP CAR INSURANCE GUIDE FOR MINOR DAMAGE

Not everyone owns a ruler or a measuring tape. Even if you do, they might be tucked away in some hard to reach cabinet. Whatever the case, you will still need to be sure that your minor scratches, dents and other damages to your car are within the diameters of your minor car damage policy.

Use this document as a guide to determine if the minor damages to your car are within the right sizes to claim against. Cut either the [inner] 15cm circle or outer 18cm circle and place it against you scratch or dent. If the cut-out covers the entire damaged area, you can claim on your scratch and dent car insurance policy.

Type of Damage	Standard Bodyguard and/or Standard Bodyguard + Interiorguard	Executive Bodyguard and/or Executive Bodyguard + Interiorguard
Light scratches	Max 15 cm	Max 18 cm
Minor damage and dents	Max 15 cm	Max 18 cm
